Subject: Microsoft Settlement

As a U.S. Citizen I am petitioning you under the turney act to refuse microsofts settlement on the grounds that microsoft has practiced unfair buisness practices in the area a unresonable barriers to entry. The policy I will cite is the benifit by means of hefty discount microsoft offers new pc manufactures such as Dell, Compaq And HP to only include their computers with microsoft product. This effectivly barrs competitors such as linux, sun micro systems, and unix from the new computer market.
